

Did you know: 30% of the energy consumed in the UK is wasted? Stop throwing your money down the drain and have a CommunityCheck!

28 September 2006

Dear Sir/Madam,

How would YOU like to reduce your energy, water and waste bills AND save money?

The CommunityCheck Project is a **FREE** service in Leicestershire and Rutland that will 'Check' your organisation and identify areas where environmental improvements can be made and money can be saved!

St Peters Community Centre, Loughborough

We can help you...

- **Save money by reducing your water, waste and energy bills**
- Improve your environmental awareness
- **Publicise your environmental achievements and gain a competitive advantage**
- Get a grant or go for an award
- **Write environmental action plans and policies**

Clarendon Park Medical Centre, Leicester

What is the catch?

There is none! The CommunityCheck Project is managed by a registered charity and funded by DEFRA, Big Lottery Fund and local Councils. We use trained volunteers alongside a coordinator to carry out the Checks.

The Check will take 2 hours and we arrange it at a time convenient to you. The check, report and follow up support will cost you nothing – in fact you could even save money by implementing a few of our recommendations!

You will receive a **FREE** report containing practical recommendations that are specific to your organisation; this is followed up with **FREE** advice and support from us and our trained volunteers.

I've read through the church report so far and am impressed with its comprehensiveness and great money saving ideas. The accompanying notes are also extremely helpful, many thanks again for your hard work.
